

Good afternoon Everyone -

We are excited about our first day back starting a new and improved school year! We are very much aware that our transportation notices went out last week, but they have not made their way to all of you. I anticipate you should receive your transportation notices tomorrow or at the latest on Wednesday. Please know that we are working with CMSD to ensure that this issue is addressed and that your scholar arrives at school safely tomorrow.

The buses were out this morning, but they did not pick any students because none of said scholars were at the pick-up points. Mrs. Myisha Godfrey and I are calling families now and giving them their pick-up points over the phone. If you have any questions please contact me directly at our school phone number 216-741-2991. We are excited to have you enrolled at our school and we will see you tomorrow. Thank you

Sincerely Yours,

Dr. Markiel J. Perkins
