

CLEVELAND PREPARATORY ACADEMY

August 12, 2019

Dear Cleveland Preparatory Academy Families,

We are thrilled and excited for the start of the school year with you and your scholars. As the weather continues to get warmer and sunnier, we will be allowing for our scholars to enjoy the weather by participating in activities in our open parking lot space of our campus. During this time, your scholar's classroom teacher will be monitoring and ensuring school expectations and safety are followed.

We will continue to be relentless with holding high expectations for all scholars, which means we will need to continue our collaboration and communication for the entire school year. Please let us know if there are any health, medical or environmental concerns that would limit your scholar from participating outside.

Please continue to be diligent about checking with your scholar daily, as over the next couple of weeks' correspondences will be sent home with your scholar regarding upcoming school events, celebrations, etc. This serves as pro-active communication for school and home.

Yours in Education,

CLPA Leadership Team
